

News from Bramfield Primary School Autumn 2018

The children at Bramfield took part in the November Safety Week. During the week the children lead assemblies on different aspects of keeping safe. The digital leaders explained the S.M.A.R.T rule to the children and shared ways to keep safe in the digital world. Later in the week the Junior Road Safety Officers showed the school how to find out if they needed to use a car seat. The week ended with a visit from the ambulance. Each class went on board to find out what to do in an emergency. We would like to thank Emma and Mark Brown for giving up their time and teaching the children about first aid.

This term we have set up some pupil groups including the Junior Road Safety Officers, The Ethos group and a Safety group. The safety group have been looking at how safe our school environment is and also organised the half termly fire practise. They took their job very seriously timing how long we took to evacuate the building and making sure everyone left in a safe an orderly manner.

We have recently set up a reflective area and we are very grateful to the Friends of Bramfield who helped us to purchase our prayer tree. Over the coming weeks with the help of our Ethos group we hope to develop this area further.

The school was contacted by a local community group in the village who asked for help planting a hedge near the school. A small group of us joined Marie and some other village residents to plant a part of the community hedgerow. We look forward to watching it grow over the coming months and years and we thank Marie Rolfe for inviting us to be part of this project.
