

Nacton Church of England Primary Summer Term News 2024

Tiger class took a trip on a trailer around Home Farm in Nacton to find out about all the crops they grow. They learnt about carrots, potatoes, parsnips, onions and barley. They also looked at irrigation machines and talked about the importance of water for growing crops.

Leopard class have looked at how the water cycle works and how it changes states of matter. They made their own class video of the water cycle. They also created a cloud in a jar, watching how water droplets over saturate a cloud, forcing it to precipitate.
