

Robins Class

The children worked so hard before the half term break and showed their creative flair using collage in art to create their very own Snail pictures (in the style of Henri Matisse). They also made a collaborative piece which is wonderful. During this topic they learned about primary and complementary colours.

Badgers Class

In music we learned all about Rock and Roll, sang the song, Rock Around the Clock and had a visit from Mr Horn who showed us the double bass and electric bass. We couldn't believe how big the double bass is and we all enjoyed having a go! In PE we were also learning about Rock and Roll dancing, so we were able to make lots of links.

From Owls

□ A huge well done and thank you to the children (and parents!) for making the models of the solar system as part of a Spring Project. They look fantastic. We will be putting these on display around the school so the whole School can see them.
