

### **Teachers Are Learners Too!**

We had the pleasure of hosting the MAT Ipswich Hub schools' annual professional development day here at Sproughton C of E Primary School. As educators, we are always learning. The PD day was a wonderful opportunity to come together and share good practise. During the morning session, staff learned about the impact of high pupil engagement in accelerating learning and explored practical strategies inspired by Kagan Cooperative Learning Structures . The teachers were excited to take these back into schools and into their classrooms for the children to enjoy. The afternoon session focused on the positive impact on learning of high parental engagement. As MAT schools, we value working in partnership with our parents so that our pupils flourish and enjoy life in all it's fullness.
